

CHAPTER 11

SUPPLEMENTARY REGULATIONS

10-11-6: GORE SHAPED LOTS: Where such a lot is a gore shaped lot, and the side lot lines thereof converge either to a point or to a rear boundary which is less than one-half ($1/2$) of the minimum required lot width, the rear lot line shall be construed to be an imaginary straight line crossing the centerline of the lot, at right angles, which is one-half ($1/2$) of the required lot width in length. (Ord. 2004-08, 11-6-2004)
