

Leadership that Listens.

No Hidden Agenda.

Dedicated, Principled, Trusted.

I want to keep Fruit Heights the gem of the county that it is, and provide **leadership that listens, communicates, and represents you**. Our city deserves nothing less. Let's promote Fruit Heights businesses, while preserving Fruit Heights' residential charm and cherished parks and trails.

For 17.5 years we have raised our family in Fruit Heights. Eight years ago, I was elected to our City Council. I have experience with budget and ordinances, with the Utah League of Cities and Towns, with working together in Council and with staff, and more.

I hold principles of **transparency, fiscal conservatism (avoid debt), fact-based communication**, and of the critical need to **gather all perspectives**—your voice matters!

It's time for new leadership. We don't need a mayor who dictates every answer – we need a mayor who *arrives at better answers*, through good-faith, open exchange in Council and with staff and residents. It's not about *who* is right, but rather about *what* is right for Fruit Heights. This is truly the way representative government should function.

If you share these values, I ask for your vote this November 4. Thank you!
