

I'm running for Mayor because I have the experience needed to help our City continue to be the wonderful place we all like to call home.

We need a Mayor that Understands:

- **Ordinances, policies and procedures.** Experience with both the Planning Commission and City Council.
- **The importance of being prepared for Emergencies.** Extensive State and Federal training as well as having served on the Emergency Preparedness Committee.

We need a Mayor that Values:

- **Fiscal Responsibility.** I am an advocate for keeping Fruit Heights debt free and keeping our expenses low.
- **Community involvement** on all levels – especially when major changes are being considered. We need input from all demographics in our City.
- **Continual transparency.** Open and timely communication to/from City officials. We've made improvements in our communications but recognize more are needed. I will continue to seek ways to improve. I welcome your input!

We need a Mayor that continues to:

- **Preserve the Community and Traditions** that cause us to want to live in Fruit Heights.
- **Work** for what the citizens of Fruit Heights value.
- **Stand up** for our City.

I would be honored to receive your vote!
